Cancel

Step 5:

New Virtual Machine Wizard

Specify Disk Capacity
How large do you want this disk to be?

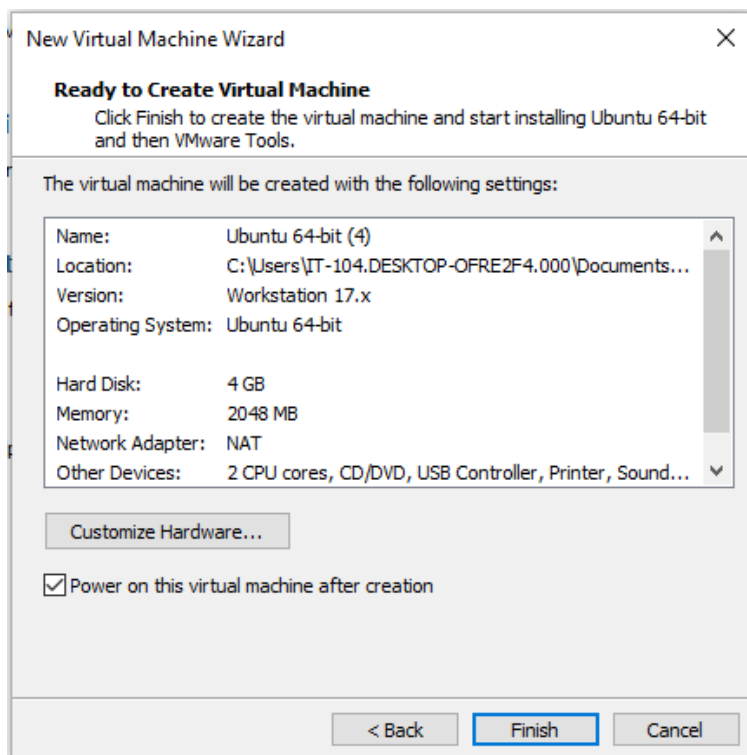

The virtual machine's hard disk is stored as one or more files on the host computer's physical disk. These file(s) start small and become larger as you add applications, files, and data to your virtual machine.

Maximum disk size (GB):

Recommended size for Ubuntu 64-bit: 20 GB

☒ Store virtual disk as a single file
☐ Split virtual disk into multiple files
Splitting the disk makes it easier to move the virtual machine to another computer but may reduce performance with very large disks.

Step 6:

New Virtual Machine Wizard

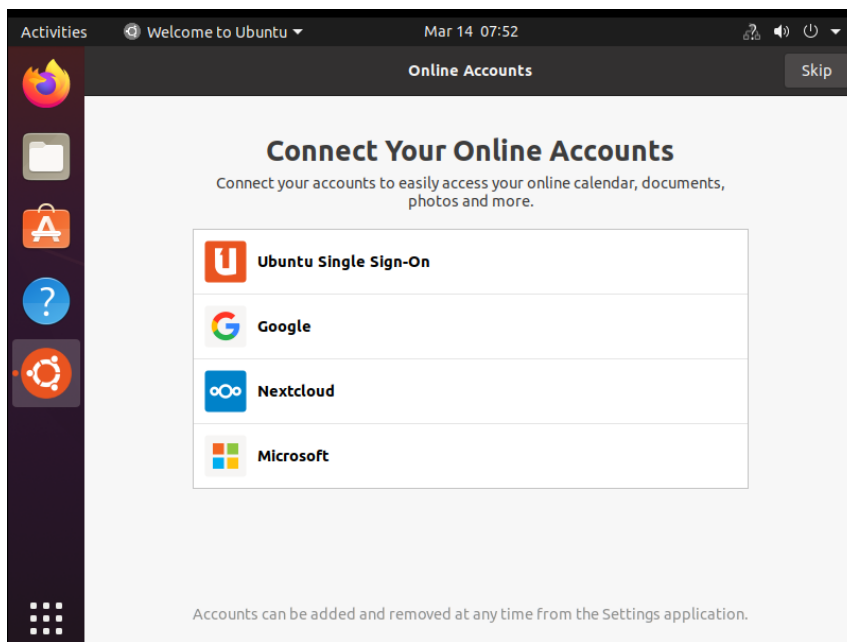

Ready to Create Virtual Machine
Click Finish to create the virtual machine and start installing Ubuntu 64-bit and then VMware Tools.

The virtual machine will be created with the following settings:

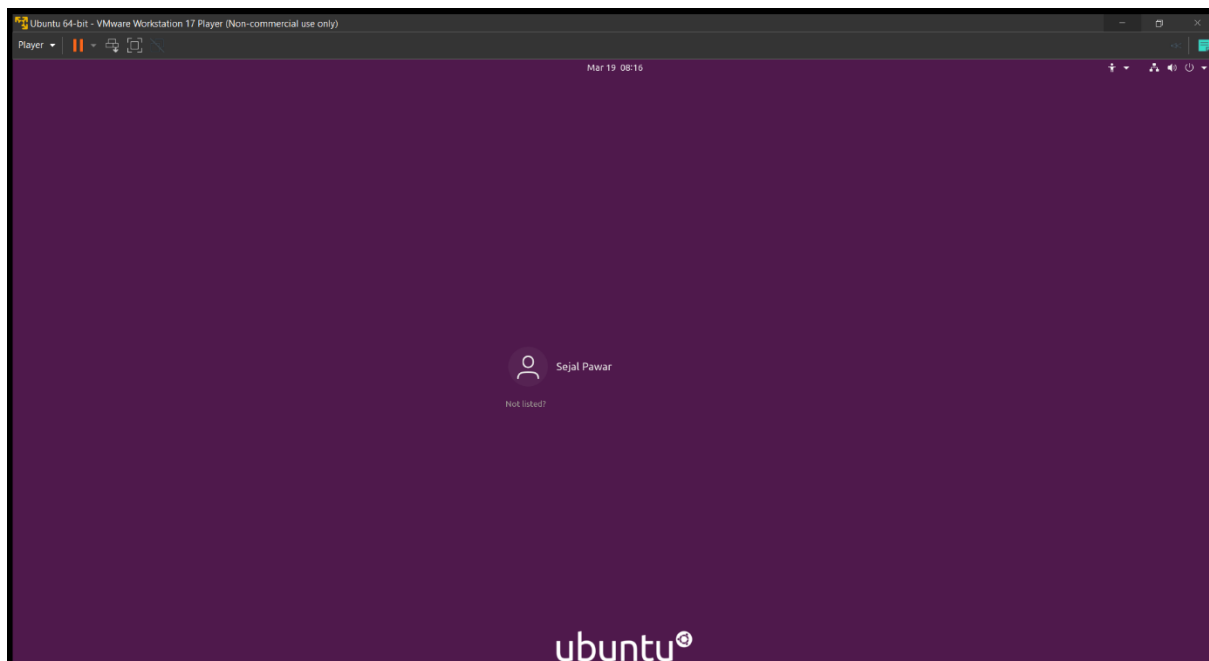

Name:	Ubuntu 64-bit (4)
Location:	C:\Users\JT-104.DESKTOP-OFRE2F4.000\Documents...
Version:	Workstation 17.x
Operating System:	Ubuntu 64-bit
Hard Disk:	4 GB
Memory:	2048 MB
Network Adapter:	NAT
Other Devices:	2 CPU cores, CD/DVD, USB Controller, Printer, Sound...

☒ Power on this virtual machine after creation

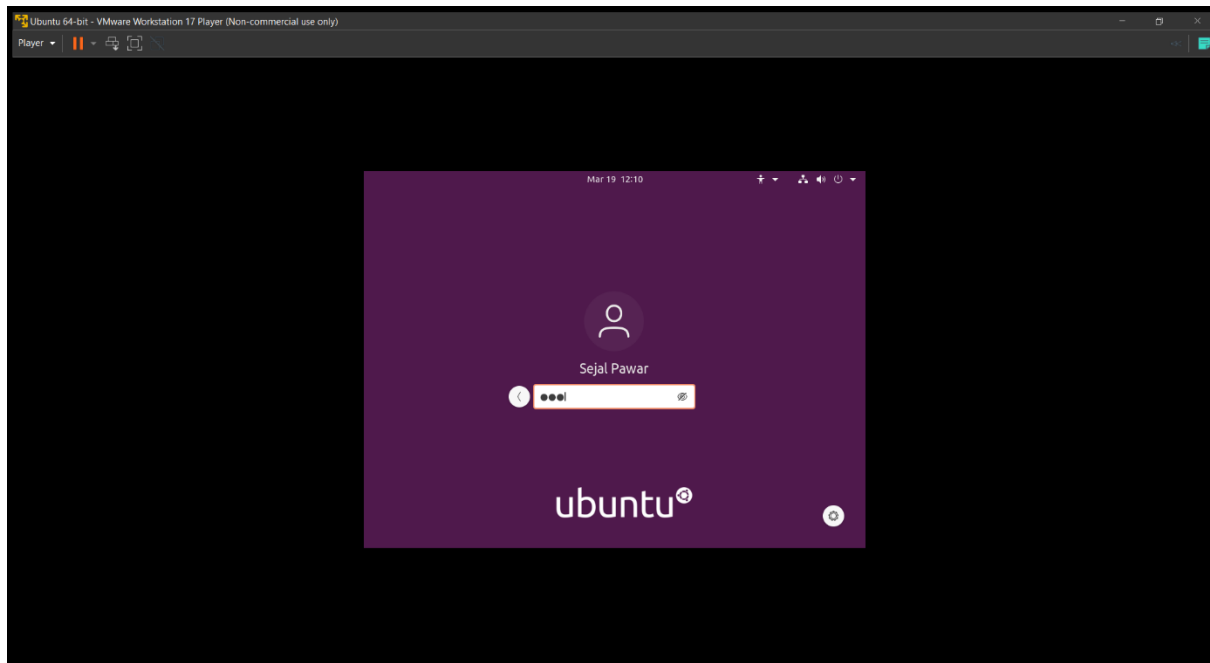

Step 7:

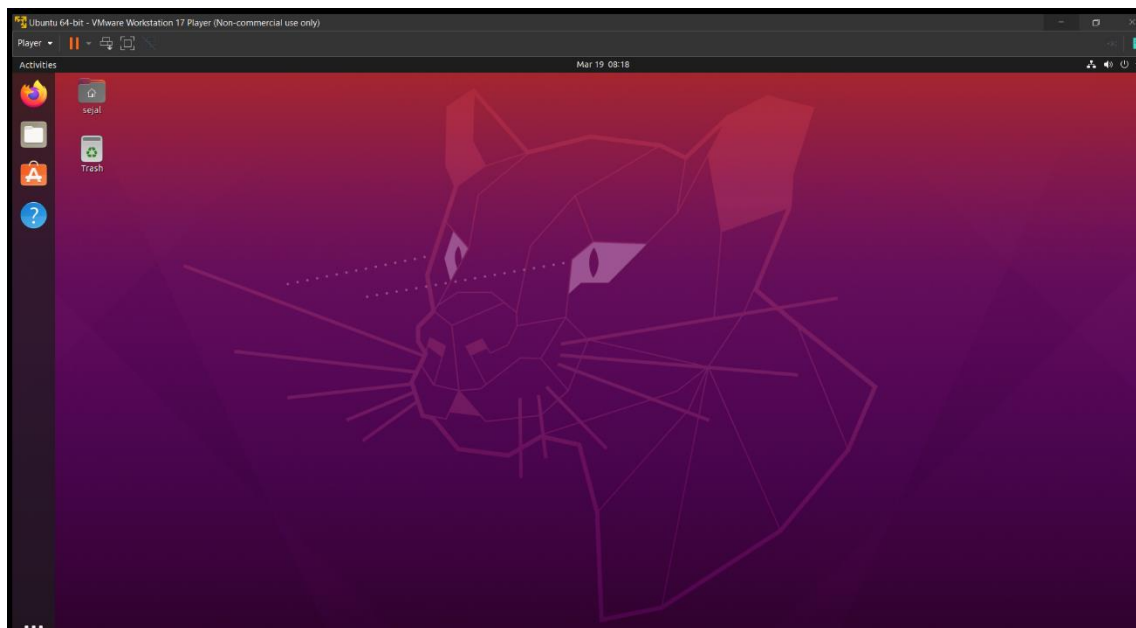

Step 8:

Step 9:

Step 10:

Writeup & Oral (4)	Practical Performance (4)	Attendance (2)	Total (10)
