14/02/2023	Modified Login Page.		
16/02/2023	Contacted with mentor and finalized MySQL as the project database language.		
17/02/2023	Looked out for reference videos and websites for image uploading page.		

Brief Description About Proposed Points:

Login Page of our website was completely build and was connected to the database. Lately, we performed some modifications onto the login page and gave different UI for login error message. We contacted to our mentor and discussed various types of languages which we can use in our project for database working. For storing data (images) he suggested MySQL will be the better to perform coding. Lastly, we started looking out for references, videos for building up the image uploading page.
