**Brief Description About Proposed Points:**

We started working on the project seminar PPT which includes data of our project such as introduction of our project, how it is implemented, etc.. For the project seminar PPT we created flowcharts, DFD's (Level-0 & Level-1), Use Case Diagram, ER Diagram. Implemented them in the PPT and finalized the PPT for Project Seminar. As the work of PPT was completed, we started gathering references for project. We referred various types of websites related to our topic and properly analysed them for getting an idea of building an attractive website.
