Brief Description About Proposed Points:

We started to the coding of Image Uploader Page which will upload selected images to the database. We completed the database coding and were able to upload images to the database. After completing the database, we completed all the Front-End working of Image Uploader Page. We then created a image viewing section where the normal user (third person) can only view the images. Lastly, made some design, layout changes in both Image Uploader Page and Image viewing section.
